About Us

Engineering the better world!

We are your main partner for sustainable, durable, and advanced technologies in every aspects.

Like a noble gas, we want to do noble in the Engineering Industries. We want to help you as your partner to optimize every business and engineering aspects you do. We do value sustainability, therefore we see you not just a clients, you are our partner.

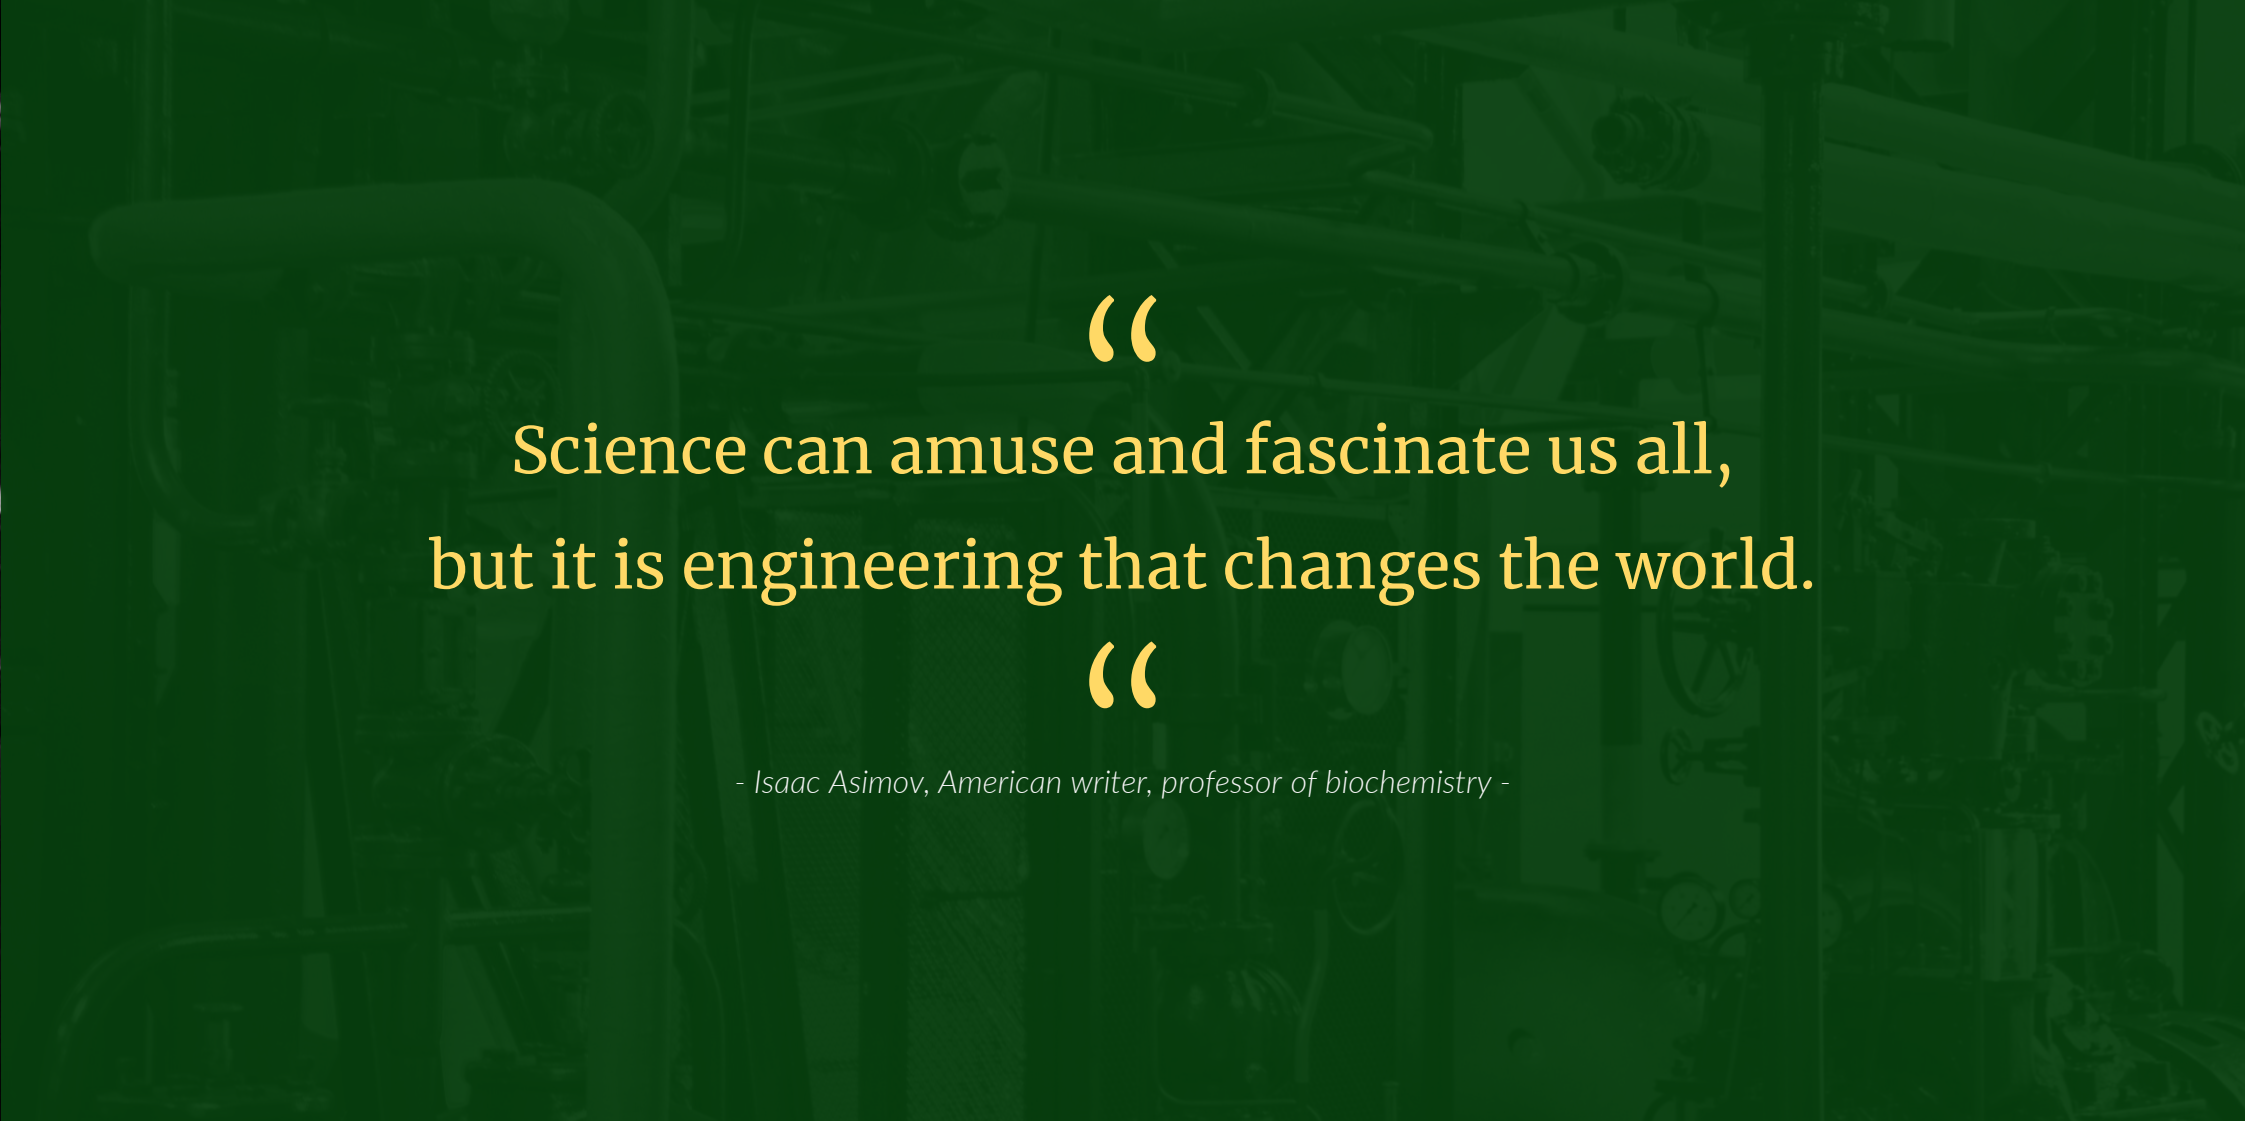

From Surabaya, we dream about the better world, the better living for all. We know our well-experienced team from various disciplines can contribute a lot in Engineering Industries. We know our expertise and experience can help your business.

Our Vision

We are very adaptive to the real condition of the industry. We strives to be the best in the field to the world for better living. We always do our best in Engineering, Consultancy, and Training.

Our Mission

To provide engineering solution to meet client's expectations and relevant standards; at the same time empowering organization with the knowledge in understanding engineering and technological aspects in their industries.

“
Science can amuse and fascinate us all,
but it is engineering that changes the world.
”

- Isaac Asimov, American writer, professor of biochemistry -

Our Services

“To give real service you must add something which cannot be bought or measured with money, and that is sincerity and integrity.”

Engineering & Design

Our multi-disciplinary team work in a flexible manner to provide a high-quality engineering and design solution to each client's unique development.

Consultancy

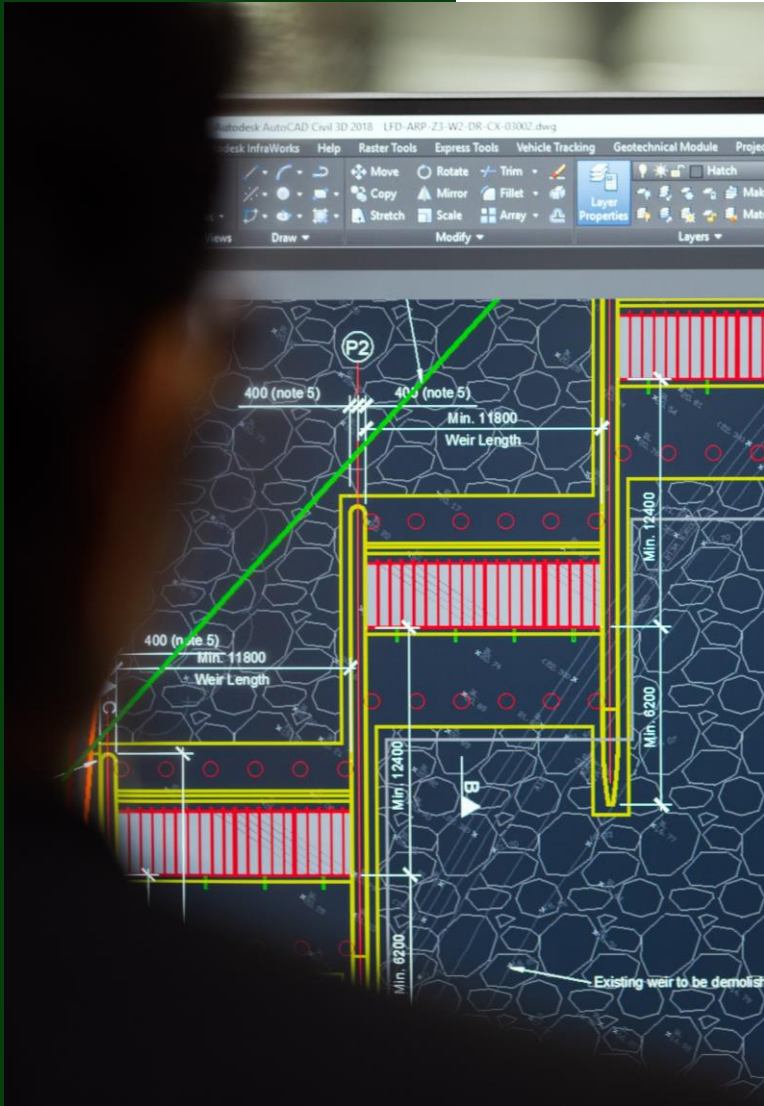

Engineering needs to be precise. And to be precise we need wider perspective. In addition of our engineering & design services, we provide consulting services for your technical assistance needs.

Training

True prevention is not waiting for bad things to happen, it's preventing bad things happening from in the first place. And in this industries, the sole solution is training your team.

Assessment

True prevention is not waiting for bad things to happen, it's preventing bad things happening from in the first place. And in this industries, the sole solution is training your team.

What Xenon Can Do in Engineering and Design

All of our works in engineering and design is to make sure that our clients enable to make sound investment decisions and execute projects with minimal technical, cost and schedule risks.
